GENERAL AND REVENUE SECRETARIAT.

Serial Nos.

Part B for June / 1875

SUBJECT.

Levy of duty on Cocoanuts and betel leaves in certain towns of the State.

Placed
[illegible]

W D 68—GPB—50,000—24-7-16

and which would have
Santes or weekly markets
others containing less than
1000 souls. This list
was sent round to Commrs,
who made a few deductions
and additions and sub-
mitted revised lists upon which
this statement was based.

The number is small
in Shimoga and in the
other Malnad Districts in
which we have very few
villages containing more
than 1000 people - I cannot
account for the
Tumkur figures. [initials] 28/7/76

The reports called for [illegible] in Pro of 15 June last
Commrs may be awaited

[illegible] Deputy [illegible] that the [illegible] Commrs in [illegible] Nos. 28 & 29 April 1875 the Commr [illegible] the means [illegible] best means of levying [illegible] Cocoanut [illegible] Pro of 15 June 1875 [illegible] before [illegible] the Cocoanut [illegible] 1875-76 [illegible] Betel leaves [illegible] collection [illegible]

(8)

Note

This statement gives the
result that there are
406 Towns & Villages where
it is recommended that
the ~~[illegible]~~ Excise on Betel leaves
& Cocoanuts should be levied as
'Town Duties' — (1) that, of these,
75 only are Municipalities
and of these again, only 31
towns are at present the means already
existing in Octroi Estt, of levying
the 'Town Duty' proposed —
so that we must establish
a collecting agency similar
to the Octroi Establishment in
406 − 31 = 375 towns & villages!

[initials] 24/7

Can it be ascertained ~~approximately~~
how the Dep. Commrs have been guided
in fixing the no. of villages to be
included in the scheme. The
no. varies from 67 in Mysore &
55 in Bangalore to 26 in Tumkur
and only 14 in Shimoga -

[initials] 26/7

I prepared a statement
in this office showing
villages containing
population above 1000,

Abstract Statement shewing the no: of towns & villages proposed to be included in the scheme of taxation as town duties in each division, the no: of places where there are municipalities, and the no: of those which having municipalities, have no octroi.

Divisions	Districts.	No: of towns	No: of villages	No: of places where there are municipalities	No: of places which having municipalities, have no octroi.	Remarks -
	1	2	4	5	6	
Arundypoog	Bangalore	9	55	16*	14	* including the town of Bangalore & Cantonment.
	Kolar	9	52	10	10	
	Tumkur	8	26	11	7	† including Yellundoor —
Shimoga	Mysore	13†	67	12	-	
	Hassan	9	57	10	-	
	Shimoga	8	14	8	-	‡ including Sringeri Jahageer.
Nagar	Kadur	8‡	32	5	-	
	Chitteldroog	10	29	3	-	
	Total	74	332. 406	75	31	

List of Head Quarter Stations, Marts, Towns and important Villages in each District in the Province of Mysore in which arrangements are to be made for the levy of duty on Cocoanuts and Betel leaves.

General No. 1902/1875/16.
Revd. 31

Ashtagram Commissioner's Office
Dated Mangalore 17th June 1875.

From

The Secretary to the Chief Commissioner of Mysore.

Sir,

I have the honor to forward herewith, for submission to the Chief Commissioner a list shewing the names of the several important villages which may be added to those inserted in the list prepared in your office, in view to arrangements being made for the levy of duty on Coconuts and Betel leaves. The additional No: of villages to be inserted is 32 in the Mysore and 53 in the Hassan Distt.

2. The names of the marginally noted 10 villages included in the list received with the docket under acknowledgement, have been left out, as they do not appear to correspond with those entered in the Data kept in the Talliks.

3. The enclosure of the docket under reference is returned.

I have the honor to be
Sir,
Your most Obd. Servt.
[illegible]
Commissioner

Rec.

No. 5965

P 139.

Rec. 28/11/pm. 18-11-74

Sanctions the restoration of the reserved Kodigidam of Banahulle on the condition of the grantees keeping the Village tank in an efficient state of repair.

From the Commissioner, Nundydroog Division, To the Offg. Superintending Engineer of Irrigation Works in Mysore, No. 148, dated Bangalore, 28th August 1874.

In forwarding the accompanying estimate with plan amounting to Rs. 1,138 for repairing the Banahallikere, registered No. 723, in the Betmangala Taluk, I have the honor to state as follows.

2. This was a kodgi tank and was in a dilapidated condition, and on intimation received from the Superintendent of Inam Settlement, the land granted as kodgi inam, measuring 12·82 acres and assessed at Rs. 12—0—11, was resumed in December 1870.

3. Subsequently, two parties, Gurikar Muniyappa and Venkatramanappa, who, it appears, had formerly purchased the kodgi inam, undertook in a petition addressed to the Deputy Commissioner to repair the tank thoroughly on condition of the inam being restored to them.

4. Mr. Krishnaiengar in submitting the proposal, recommended that the petitioners' request should be granted, observing that the revenue derived annually from the tank being only Rs. 9 would not justify so large an outlay on the part of Government, as, from personal inspection of the tank, he considered that the repairs would cost not less than 1,000 Rs.

5. Upon this, Major Hill, during his incumbency as Offg. Commissioner of this Division, called for a correct plan and estimate to be prepared by the District Surveyor. On receipt of which, Major Hay, during his tenure of office, requested to be informed what the area of the bed of the tank was, and what amount would be realized by letting out both it and the land below the tank for dry cultivation. From which questions, I conclude that he intended to propose that the tank should be breached and the land given out for dry crops.

6. The Deputy Commissioner in furnishing the information above called for, states in his *docket (copy of which is enclosed) that the total assessment from dry cultivation, both in the bed and below the tank, would be less than the amount realized at present from wet cultivation, and that much hardship would be experienced both by the ryots themselves and by their cattle, if the tank were to be breached, as it is the chief source of water supply to the village in its immediate vicinity. I therefore beg to submit the estimate for consideration.

*No. 1010—410, dated 7th August 1874.

From the Offg. Superintending Engineer of Irrigation Works in Mysore, To the Commissioner, Nundydroog Division, No. 2479, dated Bangalore, 15th September 1874.

I have the honor to acknowledge the receipt of your No. 148 of 28th August last forwarding an estimate amounting to Rs. 1,138 for the repair of the Banahallikere in the Betmangala Taluk.

2. From the plan forwarded it would appear as if the tank was a mere puddle, yielding a revenue of Rs. 11 only, and as, with the exception of the narrow arm A. B, no increase in capacity is proposed, it appears doubtful whether the increase of revenue anticipated of Rs. 20 can be realized. Even if it be, still the proposed expenditure will be nearly 40 years' revenue and will not be remunerative.

3. I observe that the ryots offer no contribution, so that it would appear that they do not attach much importance to the tank.

4. Before taking the orders of the Chief Commissioner on the tank, I shall feel obliged by your causing me to be informed of the position of the tank in the chain and series and the drainage into which its surplus flows.

From the Deputy Commissioner, Kolar District, To the Commissioner, Nundydroog Division, No. 1403—563, dated Kolar, 26th September 1874.

In reply to your official memorandum No. 459 of the 23rd instant, forwarding copy of correspondence between yourself and the Superintending Engineer of Irrigation in Mysore on the subject of repairing the Banahallikere, registered No. 723, of the Betmangala Taluk, I have the honor with reference to paras 2 and 3 of the Superintending Engineer's letter of the 15th instant, to state that it is true that

the repair of this tank is not remunerative to the Government, but as its abandonment will cause hardship to the people and cattle of the village, and as the ryots are in indigent circumstances to contribute a reasonable sum, I respectfully beg to repeat my recommendation to permit the late kodgidars to put it in order at their own cost, according to plan and estimate already submitted, on condition of the resumed inam being restored to them.

2. With regard to para 4 of the Superintending Engineer's letter under advertence, I beg to state that this tank is an isolated one, and does not belong to any series or chain of tanks. It empties its surplus water in the Budikote stream.

No. 5065—Rev. 139, dated Bangalore, 18th November 1874.

Order thereon.—As the Deputy Commissioner of Kolar considers that the restoration of the tank is indispensable for the supply of drinking water to the people and cattle of the village, and the work as a Government project is reported to be unremunerative, the Chief Commissioner will not withhold his assent to the revival and restoration of the resumed kodgi inam, on the express condition of the grantees' keeping up the tank in an efficient state of repair. In order to economize the supply of water in it and make it go as far as possible in meeting the requirements of the villagers, the small wet cultivation under it may be stopped, and the highest rate of dry assessment charged thereon.

H. WELLESLEY,
Offg. Secretary.

Rev. 139.

Sanctions the restoration of the resumed Kodgi Inam of Banahallikere on the condition of the grantees' keeping the village tank in an efficient state of repair.

Chief Cons. for orders

—

Estimate of Rs. 1138 for repairing the Banchalli Tank in the Baikunthpur Taluq -

—

The Tank, which is an isolated one, is a mere puddle yielding a revenue of Rs 10 only and although an increase of Rs 60 is promised it appears very doubtful whether it could be realized. The ryots are too poor to contribute 2. The Dep. Cons. of Coke proposes that the lodijan, which had been resumed, should be restored to the parties who have purchased it on condition that they carry out the work according to the Estimate

3. The Tank is stated to be much required for drinking purposes and the arrangement appears to be the best practicable.

Enclosures No. 2 & copy & 2 pl.

General No. 148 / No } 1874.75.

Forwards for consideration plan and estimate for the repairs of the Kodgi tank of Banahally in the Betwa ad a Taluk.

does not appear to have been taken into consideration.

As the Irish Government consider that the restoration of this work is necessary for supplying the people and cattle of the village with water, the nuisance should be removed & abated on the condition of their making the Road by the new proposed line.

To ensure a sufficient supply of water on the Road for the use of the village, the small rivulet which flows through it may be stopped, and the height of the spout may be changed upon the land under this signature.

No 148

Commissioner office
Ramandroog Division
Bangalore 28th August 1874

To

The Supg. Engineer of
Irrigation Works of Mysore

Sir,

In forwarding the accompanying Estimate with plan amounting to Rs. 1138 for repairing the Ranahully Kere Regd no 723 in the Ketmanpla Talnk, I have the honor to state as follows.

2. This was a Kodgi tank but was in a dilapidated condition. On intimation received from the Superintendent of Inam settlement, the land granted as Kodgi Inam, measuring 12.82 acres and assessed at Rs. 12-4-11 was resumed in December 1870.

3 Subsequently, two parties, Guruskar Immidiapa and Venkatramanapa, who, it appears, had formerly purchased the Kodgi Inam, undertook in a petition addressed to the Deputy Commissioner to repair the Tank thoroughly, on condition of the Inam being restored to them.

4. Mr. Krishnayar in submitting the proposal, recommended that the petitioners request should be granted; observing that the revenue derived annually from the tank being only Rs. 9, would not justify so large an outlay on the part of Government as from personal inspection of the tank, he considered that the repairs would cost not less than 1000 Rupees.

5. Upon this, Major Hill, during his incumbency as offg: Commissioner of this Division called for a correct plan & Estimate to be prepared by the District Surveyor. On receipt of which, Major Hay, during his tenure of office, requested to be informed what the area of the bed of the Tank was, and what amount would be realized by letting out both it and the land below the Tank for dry cultivation. From which questions, I conclude that he intended to propose that the Tank should be breached & the land given out for dry crops.

6. The Deputy Commissioner in furnishing

the information above called for. States in his
docket (copy of which is enclosed) that the total
assessment from dry cultivation both in the
bed and below the Tank would be less than
the amount realized at present from wet
cultivation; & that much hardship would be
experienced both by the Ryots themselves & by their
cattle, if the Tank were to be breached, as it is the
chief source of water supply to the village in its
immediate vicinity. I therefore beg to submit the
Estimate for consideration.
